AUM/ICJ/Hague: 1306

Dated: 07 Dec., 2024.

To

The Hon'ble Judges, Respected members & learned participants,
ICJ, Hague.

Respected Sir(s),

HUMBLE SUGGESTION TOWARDS GLOBAL WARMING & CLIMATE CHANGE

With due respect to the kind authority(s) of Your Excellency(s) assembled at the Hague, I humbly & most respectfully draw your kind attention towards ancient latent techniques which can be successfully invoked in our ambience towards restoration of our natural treasures towards proper life on planet Earth. I understand that public hearings are being organized to find suitable ways to resolve planet's various problems, at the Hague.

Conventional science could not find solutions towards removal of mighty predators already taken shape within our planet as Global Warming & undesirable climate changes as the same is not available within the ambit of materialistic/worldly sciences. Hence, it is right time now for an amalgamation of ancient science with modern achievements; to activate the needed mechanism to evolve every life on planet with a Divine approach by virtue of esteemed Specialized-Sciences to rejuvenate & transform our weary planet and make life more purposeful & joyous instead of aimlessly groping under fear and misery due to melting icebergs, adversaries or the pangs of so-called natural calamities.

I have accomplished extensive research in Spiritual Sciences for the past about 40 years and am confident to accomplish the task aimed herein. If Jesus, Moses and many other great sages & prophets of past could harness that Spirit-Energy towards purposeful applications then why not explore such precious avenues to bless our planet at a time now, when we desperately need the same. We need to get grips with elite techniques to tap the dynamics of Nature's potent wisdom available within and all around our planet/cosmos. The Holy Spirit of God can deliver such bountiful spirit-energy towards wonders out of its garb if one is determined with purity & good deeds to avail the same.

I humbly plead before all the great souls assembled at the Hague to please take the initiative for once and examine Bulletin Nos. 6 & 8 in the Service section/page at my site to realize the difference between ignorant/materialistic life and the potential values of Vedic sciences which remain buried deep within us, waiting to be released towards more purposeful living, by virtue of proper applications of such 'Specialized Sciences'.

I sincerely & most respectfully pray before all the wise citizenry at the Hague with hope to be given an opportunity to unveil newer prospects which would indubitably be in better interest of mankind and which would also evolve every life on our weary planet.

With best regards.

Capt. P.N.Sharma
